

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

Hello. I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF).

I do not use much long distance at all, especially on my cell phone, which I have for local emergency use only. I cannot afford any increase in my phone bills, since I'm disabled and on a limited fixed income. I cannot afford to pay the same as people or businesses that make many calls. There are many people like me who also may simply not be able to have phone services, if the bills increase above our budgets.

I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

Please protect us low-income and minority consumers and keep the USF fair, by approving the Fair Share Plan. Thank you, and best of luck in your new position.

Sincerely, Rose Ginsberg PO Box 295 Penngrove, CA 94951
